MADE IN KOREA

5th Generation Exosome Skin Booster

LACTO EXO COLLA

EXOSOME (LACTO, GINSENG, CICA, CAMELLIA) + PDRN + COLLAGEN

4 Exosomes

Lactobacillus vesicles
Panax Ginseng Callus
Centella Asiatica Callus
Camellia Japonica Callus

PDRN

Made by a French
From Wild Alaskan salmon
High-Purity PDRN
100,000 ppm

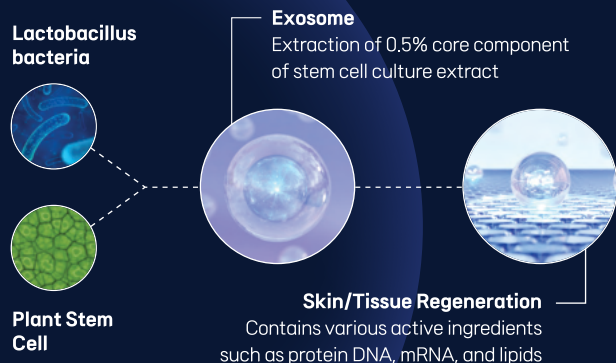

Collagen & Peptides

Atelocollagen
Hydrolyzed Collagen
8 Amino Acid Peptides
Glutathione

riola

LACTO EXO COLLA is a product that extracts exosomes, the core active ingredient, from Skin-beneficial Lactobacillus bacteria and three plant stem cell cultures and uses technology to increase the absorption of active ingredients into the skin through exosome nanoparticles. Also contains highly purified PDRN and 8 peptides.

4 Exosomes

Purified high-purity exosomes isolated from only the core active ingredients plant stem cell (callus) culture medium.

Lactobacillus Exosome

A strong skin regeneration effect demonstrated by an increase in the number of split cells when **Special Lactobacillus Beneficial Bacteria cultured** from found only on the skin of people in their 20s were treated exosomes and placed into aging skin.

Panax Ginseng Exosome

Ginsenoside (Saponin) helps regenerate aged skin cells, promotes the synthesis of hyaluronic acid, a natural moisturizing factor in the dermal layer of the skin, provides skin elasticity (improves wrinkles), and prevents skin aging.

Cica Exosome

Phytosterol, Glycoside Tannin ingredient promote skin cell regeneration, antibacterial skin inflammation and wound healing action. **Madecassic Acid, Asiaticoside** ingredient helps skin collagen synthesis, giving skin elasticity and preventing aging.

Camellia Japonica Exosome

Rich in **flavonoid, polyphenol, catechin, methionine**, etc. and have excellent antioxidant properties, which help protect the skin from irritation inside and outside the skin. They also have moisturizing effects, inhibiting inflammation, shrinking pores, and inhibiting excessive sebum secretion.

PDRN

- High-purity **PDRN 100,000 ppm**
- PDRN is **made by a French** manufacturer derived from wild Alaskan salmon.
- PDRN is **authorized by European Health Authorities (USA and Canada)**.
- Promotes and increases skin hydration
- OH[•] free radical scavenger
- Reconstruction of damaged skin
- UV light protection
- Reinforces the antioxidant barrier of the skin

8 Amino acid Peptides

- Glycine Soja Peptide
- Nicotinoyl Tripeptide-1
- Galloyl Pentapeptide-74 (SEATIDE)
- Palmitoyl Tetrapeptide-7
- Biotinoyl Tripeptide-1
- Nonapeptide-1
- Palmitoyl Pentapeptide-4
- Acetyl Hexapeptide-8

Collagen

Atelocollagen, Hydrolyzed Collagen

Promotes the synthesis of collagen and elastin, Doubles the moisturizing effect compared to hyaluronic acid
Provide elasticity to the skin and prevent sagging

Glutathione

Excellent whitening effect due to melanin suppression effect
Helps delay skin aging with powerful antioxidant effect

Tranexamic Acid

Excellent in suppressing and reducing the production of melanin pigments.
Helps improve freckles by eliminating the factors that cause freckles with anti-inflammatory/anti-allergic effects.

EGF, FGF, IGF | Collagen & Elastin regeneration growth factors

Adenosine | Helps to produce and promote collagen cells that prevent aging, and also helps improve wrinkles.

Carnitine, Arginine, Arbutin,

Ascorbic Acid | Helps with whitening, anti-aging, moisturizing, and wrinkle improvement

RATE OF CHANGE BY TEST ITEM(%)

Change rate (%) = [Analysis value after using the product - Analysis value before using the product / Analysis value before using the product] x 100
