EXOMASK

Advanced Skin Repair & Regeneration

Rose stem cell exosomes combined with Salmon DNA

Powerful Anti-Aging & Elasticity Boost

Boost PDRN and NAD⁺ activate fibroblast activity, helping to enhance collagen synthesis, skin firmness, and overall elasticity.

Instant Soothing & Post-Treatment Recovery

The bio-cellular sheet with micro-bubble technology delivers an immediate cooling effect, reducing redness, irritation, and post-procedure discomfort.

Deep Hydration & Skin Barrier Reinforcement

High-purity Hyaluronic Acid deeply hydrates the skin, improves moisture retention, and strengthens the skin barrier for long-lasting comfort.

KEY INGREDIENTS

Rose Stem Cell Exosomes

Regenerates, soothes, and strengthens the skin barrier.

1% Salmon DNA (PDRN)

Boosts cell repair, collagen synthesis, and tissue regeneration.

NAD⁺

Energizes cellular metabolism and supports anti-aging processes.

Glutathione

Brightens, reduces pigmentation, and enhances skin clarity.

Hyaluronic Acid

Delivers deep hydration and a visibly plumping, revitalizing effect.

EFFECTS OF EXOMASK®

Cellular Repair & Vitality

PDRN supports DNA repair, boosts fibroblast activity and improves firmness.

Whitening & Radiance

Exosomes and glutathione brighten dull skin for a clearer, more luminous tone.

Hydration & Smoothness

HA delivers long-lasting moisture and enhances skin elasticity and texture.

Cooling & Redness Relief

Bio-cellular micro-bubbles calm inflammation and support post-treatment recovery.

COMPOSITION

38 ml (1.28 fl. oz.) × 5 sheets / box

HOW TO USE

- 01 Apply on clean skin.
- 02 Leave for 15–20 minutes.
- 03 Let micro-bubbles activate naturally.
- 04 Gently massage remaining essence or rinse lightly.
- 05 For enhanced soothing and brightening, store in a cool place.
