Rh COLLAGEN

Next Generation Bio-Restorative Filler

Proluma Rh Collagen® is the world's first next-generation bio-restorative filler that combines Rh Collagen Type I & III with four advanced bioactive ingredients. This unique formulation delivers results that are deeper, safer, and longer-lasting than single-collagen products. Its synergy restores firmness, elasticity, hydration, and cellular vitality, ensuring comprehensive skin regeneration.

THE POWER OF SYNERGY

BENEFICIAL EFFECT

Advanced Skin Rejuvenation	Natural Lifting & Wrinkle Smoothing	Deep Hydration & Repair
Restores firmness, elasticity, and radiance by stimulating Type I & III collagen.	Provides 3D contouring while reducing fine lines and improving skin texture.	Delivers lasting moisture, revitalizes cells, and supports scar and stretch mark recovery.
